

Gender Equity

“Gender equity is an atmosphere and a reality where fair distribution of overall athletic opportunity and resources are proportionate to enrollment, are available to women and men and where no student-athlete, coach or athletic administrator is discriminated against in any way in the athletic program on the basis of gender.”

“That is to say, an athletic program is gender equitable when the men’s sports program would be pleased to accept for its own the overall participation, opportunities and resources currently allocated to the women’s program and vice versa.”
